

DELIA W.M.S.

The January meeting was held in the home of Mrs. H. S. Taylor, with 16 members and 3 visitors. Opening hymns were "Praise Him, O Gentle Saviour," followed with prayer by Mrs. Taylor.

Mrs. Turner took the devotion from J. B. Phillips' translation of the New Testament, followed with the hymn, "Take My Life and let it be."

Mrs. Hewson asked for one minute's silent prayer for our missionary, Mrs. MacMillan.

The minutes of the last meeting were read and approved. Mrs. Wallace took the chair while Mrs. Hewson was re-elected President, and Mrs. Taylor was re-elected for Christian Citizenship secretary.

It was moved by Mrs. Sloan, seconded by Mrs. Wallace, that the W.M.S. have a luncheon on Sat. Feb. 28th in the Co-op house. Each member will donate \$2.00 worth of food.

Arrangements were made for the "World's Day of Prayer Service," to be held in the United Church at 5:30 p.m. Everyone is most cordially invited to attend this service. Feb. 19th Communion consisted of letters from the Unitarian service committee, the Unitarian Church Council of Canada, and our Rev. Mr. Johnson at Newcastle.

Treas. report showed a bank balance of \$6.00 for the end of the year.

The installation of officers was conducted by Mr. Turner.

Mrs. H. Sloan gave a sermon of a book, entitled, "Don't grow old; grow up!"

Supply Ser. Mrs. Long, reported our situation for 1958 to be two per cent of budget since 1952. Xmas gifts for boy-2-4-6.

Friendship Ser. Mrs. Miller and Mrs. S. Sloan, reported one sick and 17 acute out.

The program was conducted by Mrs. Wallace and Mrs. Sloan, on the "Trends of the Church in the U.S.A."

Christian Stewardship Ser. Mrs. Macpherson, read from the Observer, an article on overseas parents.

Roll call was a verse from the Bible with the word, "Beginning."

Don of 50 cents each, paid by members present, amounted to \$7.00. Collection, \$5.72, and donation from Mrs. John Martin of \$5.00.

The members presented Mrs. Macpherson with a cup and sash in appreciation of her long service as Treasurer; and Mrs. and Mrs. Turner with a quilted shower, with all the best wishes for the New Year.

The meeting closed with singing.

ing hymn 249, after which Mrs. A. C. McCall, Mrs. Stewart and Mrs. H. Sloan, served a delicious lunch, including a delicious cake for Mrs. Macpherson, Mrs. S. Thompson, and Mrs. S. Sloan.

"Royal and White"

By LOUISE KARY

The highlight of the week was the return games with Drumheller on January 9. The girls played against the Drumheller Seniors in a very exciting and satisfying exhibition game. The Darts were well matched against Drumheller, holding them until the Seniors achieved victory with a 24-15 score. Outstanding Delia players were Marjorie Hohenacker, (1); Dorcas Van Riper, (6); Donna Wallace, (3); Diana Williams, (2); and Alice Eberle, (1).

The return game was particularly thrilling. The Darts were determined to avenge the one basketball victory held by Drumheller. They did! The Delia Darts triumphed over Drumheller with a 36-28 victory. It was indeed a magnificent night for Delia. Outstanding Delia players were Pete Boyko (18); Jim Battie (7); Ray Martin (10); Merle Morton (1); and Don Shelby (2).

The cheerleaders arrived in their new outfits for the first time before home town spectators. They were very much admired and received many compliments which quite pleased the girls. The number of people who appeared at the games was wonderful. It is estimated that over 175 people attended the games. This is the largest crowd in the history of Delia High School.

The schedule for the Darts and Dart-toss through the remainder of the season is as follows:

January 17—Big Valley vs Delia (away)

January 24—Morrin vs Delia (home)

February 4—Oyen vs Delia (home)

February 13—Yamstown vs Delia (home)

February 20—Delia vs. Hanna (away)

February 27—Hanna vs Delia (home)

February 14—Globe Lake Line League Tournament (Girls)

February 21—Globe Lake Line League Tournament (Boys)

Huge draws that more along the Hugs (Tiger took up the seal and take out of it about \$2 million of gold a year.

—Quick Canadian Facts.

Business and Financial Forecast for 1959

By ROGER W. BALCH
(Continued from last week)

25. I now see no possibility that either wages or retail prices will be "fixed" during 1959 unless Russia threatens World War III.

26. Most wage earners will be more efficient during 1959, which should enable some managements to increase their productivity and profits.

27. Executives will attend more strictly to business during 1959, reducing time spent on non-business clubs, golf, etc.

28. The number of growing cities will continue to increase in price notwithstanding a decrease in suburban building.

Small farmers holding land should not now sell.

29. Small farmers without any cash possibilities may well consider selling to adjoining farmers if offered a fair price in 1959.

30. Large commercial farms with modern machinery should prosper during 1959; but small farmers may not do so well.

31. Pending a serious war, the real estate situation in the Government's farm policy during 1959.

32. With less fear of serious war, the real estate situation in the larger cities may improve; but municipal taxes will increase.

33. Some suburban houses now owned by well-paid executives will come on the market in 1959, due to loss of positions or moves to other sections of the country.

34. Real estate mortgage money will be tighter in 1959 than in 1958. Furthermore, due to inflation, it will be worth less when due.

35. The demand for motels is largely satisfied; but there will be an increasing demand for very modern apartment houses, especially of the co-operative type. Old houses of all kinds will depreciate during 1959.

36. Woodland will continue to be in demand during 1959. This especially applies now that pine, which is used for the best lumber, and to spruce which is used for pulp. Hold woodland in 1959.

37. More Russian imports of pulpwood may be expected in 1959; but this should largely be offset by the increased domestic demand for cartons and packages for shipping and displaying merchandise.

38. Both timber and oil resources of Canada will gradually increase in value. I am bullish on many Canadian and African investments.

39. The greatest factor in determining the price of city land and businesses in general is the automobile and availability of parking space. This is responsible for both the boom in suburban real estate and the decline of city property. Buying city real estate without nearby parking facilities is a great mistake.

40. I was wrong in my forecast a year ago to the Dow Jones Averages. Although many stocks sell lower today than a year ago, the Dow Jones Averages are still higher. However, I will again run the risk and forecast that they will sell lower sometime in 1959 than they do today.

41. My forecast of the bond market for 1958 was correct. I am inclined now to reverse that forecast in the case of long term non-convertible cor.

(Continued on page 8, Col. 4)

United Church W.A.

At a meeting held at the home of Mrs. Ed. Delan on Tuesday afternoon, Jan. 6th, the W.A. elected the following slate of officers for 1959: Mrs. Ruth Green—President; Mrs. Peter and Mrs. Bob Morrison—Vice and 2nd Vice Presidents.

Secretary—Mrs. Tillotson. Treasurer—Mrs. N. Beaton. Devotional Convener—Mrs. Turner.

Manse Com.—Mrs. Barnes and Mrs. Milne.

Visiting Com.—Mrs. Staples and Mrs. Delan.

Mr. Turner presided at the election of officers, and commended the members and officers upon their full fellowship achieved at their meeting.

After the meeting an interesting hour was enjoyed watching slides which Mrs. S. H. Martin, and Miss Jean Martin, so ably showed of Mrs. Martin's recent trip to Ireland. Also views of Whitehorse, where Miss Helen Martin is working, and views of Banff.

A delicious lunch was served by the hostesses, Mrs. Delan and Mrs. Betty Taylor.

In the business meeting it was decided to have a Bake Sale on Saturday, Jan. 31st, in an effort to make further payments on the work done at the Church.

The next meeting will be held at the Manse on Tuesday, Feb. 3rd.

A man never gets a rich that he can afford to risk the loss of it.

Majestic-Farrell Lake Women's Institute

The January meeting of the Majestic-Farrell Lake W.I. was held at the home of Mrs. Alex Bold on Thursday, 8th inst.

The Pres., Mrs. H. McLaren, opened the meeting with "O Canada" followed by the Lord's Prayer.

The Sec., Mrs. Margaret Smith, acted as Sec.

The minutes and correspondence were read.

A cancer film is to be shown in Delia sometime between Jan. 19 and 31. Posters are to be put up later. It was decided to have a cancer card sale; goods are to be ordered.

Business reports were given. Roll call was answered by a New Year's resolution.

James MacKay read the meeting address.

The Feb. meeting is to be held at the home of Mrs. C. G. Foster. Mrs. J. Fulton was the surprise guest.

Mrs. Macpherson was the honored guest. She was presented by a birthday cake, made by Anna Beaton.

The address was Mrs. Anna Beaton, and Mrs. A. Bolden, Can.

Another Royal Commission

It is expected the Federal government will set up another Royal Commission to study transportation (including freight rates) in Canada. The last Royal Commission on Transportation was appointed just ten years ago and recommendations regarding collection of rates are still being studied and implemented.

Milton Cross, left, has been commentator on the weekly broadcast from the Metropolitan Opera House in New York since the program first went on the air in Canada on Christmas Day, 1951. Now back for his 28th consecutive year.

Mr. Cross, shown here with "Met" general manager Rudolf Bing, acts as host for each opera and provides a colorful commentary during the intermission. The operas are heard each Saturday afternoon on the Trans-Canada network.

EXCHANGING GRAIN FOR SEED

Commencing January 5, 1959, producers will again be permitted to deliver up to a total of 400 bushels of commercial wheat, oats, barley, rye or flaxseed over the quota, to offset the purchase of up to 150 bushels of Registered or Certified seed. Seed of self-improving forage crops may also be purchased under the provision.

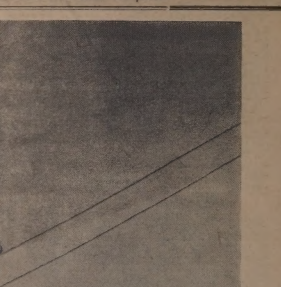

Our agent will be happy to discuss your seed requirements and to supply full particulars of the above plan.

SEARLE GRAIN COMPANY, LTD.

Farm Purchase Loans

The Alberta government has announced that more than \$250,000 has been loaned out under its Farm Purchase Credit Act since the program started in 1957. Under this plan, a young farmer may increase up to \$7,500 from the \$3,000,000 government fund, at an interest rate of 5 percent, for the purchase of land. A total of 150 farm purchase loans have been approved by the 51 Farm purchase boards set up by municipalities.

Advertising presents all known benefits.

Mrs. Brown's clothesline is strictly for the birds!

Mr. Brown bought her an electric dryer last Thursday. What else need we say? We could say that life for Mrs. Brown is so very much easier—but isn't that obvious?

And Mrs. Brown is her dryer several times a day, but it never costs more than just a few pennies for electricity.

That Democrat Worries of Dad's

Following is a poem written by a prominent Timmins, Ont., housewife, W. L. Owen. It should have special appeal to those who can remember:

I found it today had hidden away
In a jar of tooth and of woe
Not far from the spot where the
Dad had been so long ago.

And oh, what a myriad of memories
Of those long ago days and nights
That gathered around and just
Sang for me in the night.

In that democrat worry of Dad's
A front which was missing, the dash
To be lost, the dash to be lost,
The dash to be lost, the dash to be lost.

And yet as I view it, it lights
And I'm back once again as I had
When I was a boy and I was
For a role with that again and

No various other, the sun and
Have required the point it
An aim however or it, a friendly
Strive to hide its defects from

But I can't be denied, so I brush
These aside, the sun of the fun
I've had
As I found it to his side on the
To be for a role, in

And I'm back once again as I had
When I was a boy and I was
For a role with that again and

No various other, the sun and
Have required the point it
An aim however or it, a friendly
Strive to hide its defects from

But I can't be denied, so I brush
These aside, the sun of the fun
I've had
As I found it to his side on the
To be for a role, in

And I'm back once again as I had
When I was a boy and I was
For a role with that again and

No various other, the sun and
Have required the point it
An aim however or it, a friendly
Strive to hide its defects from

But I can't be denied, so I brush
These aside, the sun of the fun
I've had
As I found it to his side on the
To be for a role, in

And I'm back once again as I had
When I was a boy and I was
For a role with that again and

No various other, the sun and
Have required the point it
An aim however or it, a friendly
Strive to hide its defects from

But I can't be denied, so I brush
These aside, the sun of the fun
I've had
As I found it to his side on the
To be for a role, in

And I'm back once again as I had
When I was a boy and I was
For a role with that again and

No various other, the sun and
Have required the point it
An aim however or it, a friendly
Strive to hide its defects from

But I can't be denied, so I brush
These aside, the sun of the fun
I've had
As I found it to his side on the
To be for a role, in

And I'm back once again as I had
When I was a boy and I was
For a role with that again and

No various other, the sun and
Have required the point it
An aim however or it, a friendly
Strive to hide its defects from

But I can't be denied, so I brush
These aside, the sun of the fun

Don't ignore crossed eyes

A message with a sense of urgency from all Canadian doctors is being sent to the C.N.B. film production. The message that management will convey concerns the unnecessary blindness that some eye care

of previous sight because of neglect and ignorance about care of the eyes.

Living color, audio, numerous dramatic devices and the double impact of the audio-visual medium, the film, tentatively titled "A Chance to Sight," will draw home the idea that unless crossed eyes are detected when they are in the early stages, blindness may be inevitable and surgery is almost a certainty.

The film is the result of some year observation on the part of C.N.B. personnel. Executive officers, field representatives and social workers reported from all provinces that most people believe that crossed eyes in children will straighten of their own accord with the passing of time. In reality, just the opposite is true. Crossed eyes come either in one or two of everything. If nature is allowed to take its course, the child's eye shape will change. This reduces the visual image to a single image, which is the cause of the problem. Each year hundreds of Canadian children suffer this type of blindness and the tragedy of the blindness is inevitable because the condition never has been detected.

If crossed eyes are corrected early, a doctor's direction during the first few years of childhood will help the eye together. Both eyes see in unison and the child's vision will form a single image which that he would have seen had the condition never existed.

Parents don't know this. They expect to take their children to the eye doctor and by the time the child is three years old, the problem has become so serious that the damage is done and the eyes are gone.

It is urgent parents should know the true facts on the cure of crossed eyes. C.N.B. has produced a film with Motion Picture Centre, a highly recommended film called "Early-Ordered Chicks."

Telling the story of one family whose children have crossed eyes, the film discusses the anxieties and doubts of the parents and the willingness to face their problem and the steps to be taken for a solution. All parents and those who care for children should put this documentary to their hearts.

Early in 1955 thirty prints in English and 25 in French will be sent to all eye doctors in Canada from coast to coast. By contacting your local eye doctor, you may book this film for church groups, P.T.A., community club meetings.

Through your booking you will have the privilege of seeing the film of Canada the good tidings that have been brought to the past, treated in time, have "A Chance to Sight" The Canadian, Canada, Alberta, Alberta.

It's possible that a college education doesn't always pay, but that doesn't mean Pop from his financial obligation.

There are management reasons why early education to finance the poultry commissioner. But that doesn't mean Pop from his financial obligation.

Modern method growing tomatoes

A modern method of growing tomatoes from seed in a single flower pot and protecting them the elements when transplanted by covering them with paper or plastic "hot caps" was described in Kamauk, Sask., recently during farm and city work.

Gran Sheard, horticulturalist with the Saskatchewan Department of Agriculture, told some 30 persons use of "hot caps" would mean early ripening of tomatoes. The big advantage, he said, was the tomatoes would not need to be transplanted in earth-filled boxes before being planted in the garden. This would avoid the nuisance of having boxes in every window. It also avoids plants being set back severely when transplanted into the garden.

Hurrying the development of seedling tomatoes by covering them with hot caps would mean a greater production of tomatoes as well as earlier ripening.

Mr. Sheard said tomato seeds could be started April 15, up to 30 in a five to six inch pot or tobacco tin filled with vermiculite. Vermiculite is an inert material which makes an excellent starting medium for seeds.

May 15 the tomato seedlings are not outdoors for three or four days to harden them off. May 20 they are transplanted into the garden and covered with the hot caps which cost about five cents each. The seedlings at this time are only two or three inches high.

The hot caps are shaped like cones with heavy paper as a stiffener. The caps are a device to hold the heat inside yet admit light through the top of the cone.

By June 10, Mr. Sheard says, the tomatoes likely will have grown high enough to be pinning against their covering. The hot caps may be removed or slit to let the plant grow through as the fear of frost damage has passed.

Mr. Sheard does admit, however, a disadvantage of hot caps is that hand weeding may have to be done if weeds begin growing under the hot caps with the tomatoes.

Bassano may have 1958 antler record

Two Bassano big game hunters may have shot the Canadian record moose for 1958 when they brought home a head with 15 points measuring 47½ inches from tip to tip.

Bassano's Chief Constable K. W. Degen, in company with John Berlinger, also of Bassano, were the lucky sportsmen. The pair were hunting west of Chinook in Hunter 10 Zone in the foothills, each bagging his animal. Degen's big one weighed out at 550 pounds, while Berlinger's two-point moose weighed at 330 pounds.

An affidavit of the antler measurement was made out by Beale Lamm, president of the Bassano Fish and Game Association, with Bill Ekropek and John Berlinger signing as witnesses.

Official word on record trophies in 1958 is now awaited from the Calgary Fish and Game office—The Bulletin, Brooks, Alta.

LABOUR BUDGET

In the year ended March 31, 1958, the ten provincial governments spent an estimated total of \$2,226,000,000, an increase of \$180 million over the previous year.

Charles Camsell Indian Hospital For An Exclusive Clientele

A substantial 3-storey brick building in downtown Edmonton reserves its services strictly for an exclusive clientele. The Charles Camsell Hospital was set up in 1946 with the health needs and problems of Canada's Eskimo and Indian population uppermost in mind. Today it has accommodation for over 300 and their facilities are geared to handle everyone from the newborn to the aged. Above 1-year-old Peter Tingmansk enjoys a swing under the watchful eye of Nurse Onychko.

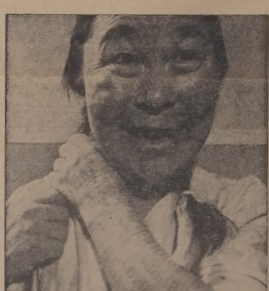

Nurse Gallagher delights 2 little Eskimo lads with a story about Eskimos. Some members of the staff are themselves of Indian or Eskimo origin.

The hospital maintains a varied rehabilitation program which includes educational services, and handicraft training. Above a young Indian girl who has completed her treatment is taken on a shopping tour of local department stores, her first introduction to current fashion styles.

Two-thirds of the hospital's patients suffer from tuberculosis as does the little girl above. In the past decade an intensive health program has succeeded in reducing the T.B. death rate from 579 to fewer than 50 per 100,000.

Among the hospital's Eskimo patients is Mary Edetook from Spence Bay. She belongs to one of the few remaining groups who still use tattoo marks; the custom is losing popularity with the younger generations.

There's no shortage of hearty appetites in the tiny tea ward. 93 nurses tend the needs of patients together with a staff of 15 doctors and a dentist. Through a close working arrangement with the Edmonton area the hospital may call on the professional and technical skill of outsiders when necessary to supplement its own highly trained staff and modern facilities.

Charles Camsell Indian hospital

The rambling brick and wood building which houses the Charles Camsell Indian Hospital at Edmonton, Alberta, has had a long and chequered career. Built in 1919 the central and original part of the structure was erected to serve as a Jesuit College. In 1942 the building was taken over by the United States Army and used as the hub for medical services during construction phase of the Alaskan Highway. The U.S. Army made extensive additions to the building. In 1944, on completion of the Alaskan highway system, the hospital, named from American to Canadian hands. For the next two years it was used as a military hospital and in 1946 was allocated to the federal government's Department of Indian Health Services. It was named the Charles Camsell Indian Hospital after the (then) Deputy Minister of the Department of Mines and Resources who was himself of Indian extraction.

Gradually by small additions and improvements the possible accommodation of patients was increased to over five hundred and fifty. About 60 per cent of the beds are presently used for general medicine and two thirds for tuberculosis. It is hoped that this ratio will continue to shift towards more general care as the amount of serious tuberculosis is reduced.

The hospital contains an educational organization provided by the Department of Citizenship and Immigration for Indians and by Northern Affairs and National Resources for Eskimos, thus taking advantage of the vast in-hospital to extend the book knowledge of the people. There is an active handicraft department in which the old skills are fostered while serving as occupational therapy. There is also a physiotherapy department as well as extensive laboratories of all required kinds.

The staff consists of 150 full-time medical officers and a dental surgeon with thirty-three graduate nurses and some two hundred and fifty other persons covering the wide range of qualifications required in a modern hospital. Many of the staff are of Indian or Eskimo origin. Through close working arrangements, the hospital can call on any professional or technical skill in the Edmonton area to support its own staff and facilities.

The Medical Superintendent is Dr. Matthew Matek who has been with the staff since the end of World War II. Before the war he practiced in Northern Alberta. The Director of Nursing is Miss F. Kline Taylor who is a graduate of St. Boniface Hospital in Winnipeg with post-graduate training at the University of Toronto.

U. of S. "Rare Book Room"

Books and documents that are relics of other generations have found a place in a little-known room in the Murray Memorial Library at the University of Saskatchewan in Saskatoon.

Called the "rare book room," certain for example, Bibles of many kinds and many ages, and books from the Middle Ages and works of great authors. The value of the collection is not in the books, but in the fact that it is not huge—the most expensive item costs \$100, but the value in terms of the library having in its collection of literary activities in various ages is great.

As the Librarian, D. C. Appell, says, it's important that the students to see what was done in the past, and therefore it's his job to provide as many examples as we can.

Most of the items in the collection have been provided by direct gifts from individuals or through gifts from citizens and organizations.

The generosity of the donors is a major factor in its being able to maintain our rare book room.

Mr. Appell says, "Other necessary financial support comes from the University grants."

Producer editor appointed

Tom R. McVillie-Ness, business manager of Modern Press, has been appointed editor and publisher of the Western Producer.

Mr. McVillie-Ness, a native of Pelly, B.C., who has been in the business for many years, has been appointed business manager.

The appointments were announced by J. R. Wesson chairman of the board of directors of Modern Press, printing and publishing division of the Saskatchewan Wheat Pool.

Mr. Wesson also announced that Mr. Wesson would continue as editor of the Western Producer.

Cattle on the move

One of the picturesque scenes that is typical of this ranching area was portrayed recently when Al Baker and his assistants moved an estimated herd of five or six hundred cattle from the C&N line to their winter pasture.

The setting and the day was perfect, a warm sun shining on snow-dusted hills and the breath of the climate beginning its promise of warmth. The cows and heifers being moved were bunched in the gravelly north of the Bar U buildings and upon release they stampeded off through a snow-covered field.

The black swany waddles of the cattle were in the snow.

The black swany waddles of the cattle were in the snow.

The black swany waddles of the cattle were in the snow.

quietly and contentedly over the snow-dusted hills where only the sharp cry of the riders broke the serenity of the scene as word of the herd hastened to munch at grass.

This scene of a beautiful and beautiful nature will be seen and described across Canada, for C&N television had representatives there and they were to be seen on the air and press will portray in pictures and words another of the scenes which Westerners so live.

Premier asks rollback of 17% freight boost

Premier Doug Roblin recently told a group of Manitoba shippers that the province was seeking a rollback of the latest 17 percent freight boost because the award increased the geographical distribution.

The meeting, first of several that will be held by the premier, was told by Mr. Roblin there were indications that the government might reduce discrimination against private and maritime shippers by rolling back "some of the unfairness" of the 17 percent increase.

Mr. Roblin said that in addition to the 17 percent increase, there must be an entirely new approach to the question of awarding freight rate increases.

He said that the long-term problem was still with us. He pointed out that the rates had not been stable since it would apply to the province.

The flat across-the-board increase awarded by the board of transport commissioners, he said, would mean that 33 percent of the increase would be absorbed by 70 percent of the increase.

Mr. Roblin said that the freight was becoming greater with every freight rate increase, he said.

The meeting was more than 100 shippers from various industries, agriculture, shipping, manufacturing, and others.

Mr. Roblin said that the hand to bear reports of provincial shippers, he said.

outs, significant tax cuts, deficit spending, an expanding money supply and a stable dollar all at one and the same time (and a time, moreover, when real national wealth as reflected in the value of production is not increasing) is for a rude awakening.

Local & District

The weather has been very cold during the past week with overnight below zero temperatures. The mercury at this writing is 5 above.

Linda Richardson, daughter of Mr. and Mrs. Geo. Richardson, was in the Hanna Hospital for a few days last week, having a local operation.

A successful afternoon was held on Jan. 14th in the community hall, when the moon-people crowd turned out for the John Deere Show in Delia.

Miss Margaret Rose Battle was a week end visitor with her parents, Mr. and Mrs. L. Battle, of Delia.

Miss Marilyn Lowe, of Michichi, arrived home recently, after spending several months in a Calgary hospital, receiving treatments.

F.W.U.A. and F.U.A.

The regular meeting of the Delia F.W.U.A. and F.U.A. was held at the home of Mr. and Mrs. H. Edwards on Thursday, January 8th.

Mrs. Chambers, from Morrin, and Basil Edwards gave interesting reports from the recent convention held in Edmonton.

The usual donations of food and fair marketability, well-established utility stocks should be the best for conservative investors not looking for a quick return.

This especially applies to cumulative first preferred non-callable utility stocks.

The three handicaps to American business are the fear of inflation, the fear of unemployment, and the fear of industrial obsolescence.

Gov't Scholarships
Scholarships with total value of more than \$5,000 are again being made available to Alberta students by the Cultural Activities Branch, Department of Economic Affairs. They range from \$200 to \$500 in the fields of drama, handicrafts and visual arts, librarianship, music and recreation.

Drums scholarship up to \$500 are open to Albertans working in that field. Deadline for applications is February 28th. Scholarships of \$250 to \$400 are available in the fields of visual arts, and handicrafts, respectively. Application deadline is also February 28th.

Two scholarships of \$400 and one of \$250 are available in the field of librarianship. Deadline for applications is March 31st. Five scholarships of \$250 are available in music, with January 31st deadline for applications.

Scholarships ranging from \$50 to \$500 are available to persons interested in recreation. Applications must be submitted before March 31st.

Further information on all cultural activities is being written by the Government of Alberta, Department of Economic Affairs, Cultural Activities Branch, Regina, Saskatchewan.

Man who makes big money are careful with their small change.

Business and Financial Forecast for 1959

By Henry W. Bannan
(Continued from Front Page)

porate bonds—that is, they should sell for less sometime in 1959 than they are selling for today.

42. I continue to forecast that high-grade, cumulative, non-callable first preferred stocks will sell higher sometime during 1959 than they do today.

43. I repeat what I said last year regarding "cheap" stocks: "The large fortunes made in the stock market have come from buying non-dividend-paying common stocks at \$5.00 or share or under. These will be the first to reach a bubble level." If you are to buy these low-priced common stocks, you should seek companies without too much prior debt or cumulative preferred stock outstanding. They are the best common stocks for "capital gains."

44. Go verifiable bonds should hold up fairly well during 1959.
